Amendment

1. This action is responsive to the amendment filed on March 14, 2005. Claims 1 – 10, 15 – 36 are pending examination. Claims 11 – 14 were withdrawn , claims 16 – 36 were newly added.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121 and 372.

Claims 1 – 10 and 15 - 34 are drawn to Virtual Task or Management /Control classified in class 718, subclass 100.

Claims 35 36 are drawn to computer network configuring, classified in class 709, subclass 220.

The inventions are distinct, each from the other because of the following reasons:

Because these inventions are distinct for the reasons given above and the search group required for Group I is not required for group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is reminded that upon the cancellation of claims to non-elected inventions, the inventorship must be amended in compliance with 37CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a request under 35 CFR 1.48(b) and by the fee required under CFR 1.17(i).
